The “3 Dudes” Block Tutorial
This tutorial uses green fabrics from a mixed green blender jelly roll, and pinks from a mixed pink blender jelly roll.

DIRECTIONS

1. Choose 8 jelly roll strips. Try 2 colors, with varying hues of each color to copy this block.
2. Sew each set of four together lengthwise.
3. Next, you’re going to cut each of the 4-strip segments into 8.5” squares. You will get 5 from each set.
4. Next, you will put two contrasting blocks right sides together, one with your strips placed vertically, the other horizontally. Second photo below has top block opened so you can see what I mean.
5. Now sew a ¼” seam all the way around your blocks so there is a seam on all 4 sides.
6. Next, using your rotary cutter, cut from corner to corner across one way, and then the other as well.
And here are the 4 blocks you’ll get!
Now repeat Step 4 onward with another two blocks, so you have a second set of 4 blocks... and here's what you can do with them!
See our jelly roll compilation book, “The Diagonals” to see a bunch of examples of the 3 Dudes block and others!

Have fun with it!
